## Summary

---

I'm Moataz Hassan. I am a dedicated and aspiring Frontend Developer with a strong passion for web development, specializing in React.js. Eager to expand my skills and knowledge, I continuously seek out learning opportunities and hands-on projects. My goal is to contribute to innovative web applications that provide exceptional user experiences. I am on a journey to becoming a Front-end Developer, driven by curiosity and a commitment to excellence.

## Technical Skills

---

**Proficient:** HTML, CSS, React.js, Redux, Redux Toolkit, React Query, Tailwind, Next.js, Bootstrap, Responsive Web Design, Git & GitHub, Figma,

**Moderate:** SASS, TypeScript, jQuery, OOP, NPM

## Projects

---

[Fresh Cart](#) | **E-commerce Platform** | React.js, React Query, Context API, TailwindCSS February 2025

- **Description:** Developed a fully functional E-commerce web application for showcasing and selling products online.
- **Technologies:** React, React Query, Context API, React Router DOM, TailwindCSS, RESTful APIs, Payment Integration.
- **Responsibilities :** Integrated a RESTful API to fetch and display product data dynamically.
- Implemented React Router DOM for seamless navigation and user experience.
- Managed global state efficiently using React Query & Context API, enhancing performance and scalability.
- Designed a responsive, modern UI using TailwindCSS to ensure a smooth user experience.
- Integrated **secure payment processing**, enabling hassle-free transactions.
- **Outcome:** Delivered a **high-performance, user-friendly** E-commerce platform with **dynamic data rendering**, improving product visibility and user engagement.

**Description:** Developed a visually appealing and interactive food recipe web application for discovering and exploring various meal options

- **Technologies:** HTML, SCSS, JavaScript, React.js.
- **Responsibilities:** Implemented dynamic filtering to categorize meals efficiently.
- Designed and developed responsive UI using SCSS for a smooth user experience
- Created a detailed meal page displaying ingredients and preparation steps.
- **Outcome:** Delivered an engaging, user-friendly platform with dynamic recipe browsing, improving accessibility and user interaction.

[Weather App](#) | *HTML, CSS, JavaScript*

*December 2024*

- **Website Development:** Built a dynamic weather application using **JavaScript** and integrated it with a weather API to fetch real-time data.
- **Core Features:** Displays current weather conditions, forecasts, and additional information like humidity and wind speed.
- **API Integration:** Utilized a weather API for accurate and up-to-date weather data.
- **Interactive UI:** Designed and implemented an intuitive interface for a seamless user experience.
- **Technologies:** JavaScript, API Integration, CSS.

[Masar Project](#) | *HTML, CSS, JavaScript*

*February 2025*

- **Description:** Developed a professional and visually appealing website for a construction company, showcasing its services, projects, and expertise in the industry.
- **Technologies:** HTML, CSS, JavaScript.
- **Responsibilities:**
  - Designed and implemented a responsive and modern UI to ensure a seamless experience across devices.
  - Developed structured sections to highlight company services, completed projects, and client testimonials.
  - Integrated smooth animations and interactive elements using JavaScript to enhance user engagement.
  - Optimized performance and accessibility for better usability and SEO.
- **Outcome:** Delivered a high-quality, user-friendly platform that effectively represents the company's brand, attracts potential clients, and enhances its online presence.

## Experience

---

### Route Academy

*Trainee Frontend Developer*

*Cairo, Egypt*

- Completed an intensive web development track, mastering skills in HTML5, CSS3, JavaScript, and React.
- Developed interactive and responsive web applications using modern front-end technologies like React and TailwindCSS, focusing on enhancing user experience and performance.
- Led hands-on projects that involved designing innovative user interfaces with Figma and integrating them with advanced tools like Vite to accelerate development and optimize performance.
- Proficient in implementing best practices in web development, including responsive design, cross-browser optimization, and creating high-quality dynamic web applications.

## Certifications

---

- Route Academy – Frontend Development Certificate

## Education

---

### Obour higher institutes

September 2021 – July 2025

Bachelor of Science in Computer Science
